THE CENTER FOR RURAL HEALTH WEBINAR SERIES

A webinar series focused on providing technical assistance to rural stakeholders to disseminate research findings, policy updates, best-practices and other rural health issues to statewide rural partners and stakeholders throughout the state.

Webinar:
Tuesday, February 20, 2018
12:00 pm MST

Action. Awareness. Outcome!
Arizona’s Rx Drug Misuse and Abuse Initiative Community Toolkit

Learning Objectives:

1. Brief overview of the opioid epidemic in Arizona
2. Identify key strategies of the Rx Misuse And Abuse Initiative Toolkit, and how it can be implemented in your community
3. Highlight Toolkit successes of county health departments across the State

Lacie Ampadu manages the Prescription Drug Overdose Prevention Program at the Arizona Department of Health Services. The program is part of a statewide initiative to reduce death and injury related to prescription drug misuse and abuse in communities across Arizona. This initiative is funded in part by the CDC Prescription for States Grant, and is propelled through partnerships with county health departments, various state agencies, and key stakeholders that all play an important role in combatting the opioid epidemic. Lacie received her Master’s Degree in Public Health from East Carolina University. She has a passion for working with people and communities to help protect and promote the health, safety and wellbeing of all lives.
